

DETAILS OF THE THIRD WORKSHOP OF 2019

NAGYKANIZSA

The central topic of the workshop was the financial awareness of private individuals, and the education demands, and opportunities related to it.

The workshop was organised with the participation of the EUROPÉER Foundation's representative, the Croatian partner organisation CEDEX's representative, and the representatives of organisations and enterprises relevant to the topic.

One of the important knowledge areas of project management is cost management. In the PLM programme, which aims to adapt the project perspective methodology and toolset to private life also stresses the importance of family and personal funds management.

The goal of the workshop is to shed light on this topic from as many angles as possible, find important connections, and cooperation opportunities.

The workshop started with presentations, where presenters introduced

- the transnational programmes and partners
- the PLM programme
- the experiences of the relevant Croatian research

Following this, the participants shared their information and experiences related to the topic with each other:

- Financial service providers offered to participants
 - o their own services, methods and approaches they use
 - o their experiences on civilian awareness towards finances
 - o the more important initiatives and education programmes – they know of – that aim to increase financial awareness
 - o their generally identified lacking points and important, noteworthy points related to courses and perspective shaping
- Members of the foundation
 - o stressed the importance of systematic thought process
 - o used examples to illustrate the connections between knowledge areas of cost management and project management

- Members of other organisations
 - o introduced their own experiences, demands and opinions.

As the results of the workshop, participants

- got to know a new, potentially applicable methodology (PLM), which may serve as a basis to further develop their current courses, methodology and services
- identified demands, suggestions and information which should be taken into consideration during the development of PLM's cost-management module, and the courses related.

The workshop made it possible to create and strengthen international relations as well, building a cooperative network.
